1. Event Format - Supersprint

Vehicles will be divided into groups based on previous lap times at SMSP Amaroo (if available), Wakefield Park or Pheasant Wood times recorded in the entered vehicle. In the event that a driver has not competed at any of these tracks before, he/she will be placed in the "First Timers" group to determine their appropriate group. The number of vehicles in any one group will not exceed twelve (12). Configuration of the groups will be finalised following the closing of entries and will be issued to competitors in the form of a grid sheet.

If an entrant has not competed at SMSP Amaroo/South Circuit before, they will be deemed to be a "first-timer" and placed in a group with other first timers.

Vehicles will be started individually with a gap of approximately five (5) seconds between each vehicle.

The Clerk of Course or delegated official may transfer drivers to other groups or to a different starting position within a group during the day, if necessary, to maintain consistent lap times within each group.

Each run will comprise a minimum time to allow all competitors to complete at least 3 laps, with the time for the fastest single lap being used for results.

The minimum time for each run will be 6 minutes from the first vehicle crossing the start/finish line in a session until the chequered flag is shown to end of the session.

Proposed minimum number of runs on the day will be 5. The Event will not be concluded when this minimum is achieved. The Event will only be concluded early for safety reasons or if no competitors are available.

Grouping of vehicles to form a 'mini race' anywhere on the circuit is NOT permitted and action will be taken by the Clerk of Course if such an incident takes place.

2. Event Format – Regularity

Drivers will be divided into initial groups based on estimated SMSP lap times, Wakefield Park lap times or calculated from previous lap times at Pheasant Wood, recorded in the entered vehicle. The number of vehicles in any one group will not exceed twelve (12). Configuration of the groups will be finalised following the closing of entries and will be issued to competitors in the form of a grid sheet on the day.

The initial groups will then each have a timed practice session of 16 minutes. At the completion of that session, drivers will nominate a target time for the Regularity competition.

Based on the nominated times, drivers will again be divided into groups. The number of vehicles in any one group will again not exceed twelve (12). Drivers will be advised of the new groups.

Drivers may change their target time between sessions, and must notify the timers within 30 minutes of the end of a practice or competition session.

The minimum time for each run will be 16 minutes from the first vehicle crossing the start/finish line in a session until the chequered flag is shown to the end of the session.

Vehicles in each group will be started individually with a gap of at least five (5) seconds between them. This will reduce the likelihood of overtaking.

Grouping of vehicles to form a 'mini race' anywhere on the circuit is NOT permitted and action will be taken by Club / MDTC Officials if such an incident takes place.

Competitors will be advised of the regularity scoring scheme at the drivers briefing.

3. Event Schedule

Scrutineering	Start time 7:30 am	Finish time 8:30 am
Drivers Briefing	Start time 8:30 am	Finish time 8:50 am
Competition	Start time 9:00 am	Finish time 4:00 pm

The Event will not be delayed due to late arrivals. It is the Drivers' responsibility to ensure their vehicles are prepared before the scheduled starting time of competition.

4. Pre-Event Scrutineering at Circuit

Pre-event drive through scrutineering and driver registration will be performed in the garages under the control tower.

A self-scrutiny vehicle safety check must be performed by the competitor prior to competition. This check is to be based on a check item reference sheet that will be distributed electronically to competitors as part of the "Information Sheet" prior to the Event. The online "[Statement of Vehicle Compliance](#)" must be completed by the closing date OR in the case of a dual entered vehicle Driver 2 must instead complete the online "Compliance Form Second Driver".

Targeted scrutineering will be used at the circuit. The scrutineers may conduct spot checks on the day whilst maintaining distancing and non-contact protocols. If any non-compliance is found, the Driver/Competitor will be referred to the Clerk of the Course.

5. Drivers Briefing

There will be a short pre-event Drivers Briefing. Comprehensive drivers briefing notes will be distributed electronically to all competitors.

6. Familiarisation Session

A familiarisation session with an experienced driver as an adviser may be provided for the first-timer entrants who have not competed previously at SMSP Amaroo/South Circuit.

The familiarisation session will be divided into 2 parts. For the first part the advisor will drive the vehicle for 3 laps with the first-timer as a passenger to learn the lines, braking points and how to enter and exit the circuit. In the 2nd part the first-timer will drive the vehicle for 3 laps with the advisor as a passenger to provide tuition.

The familiarisation session will not be timed, and the first-timers and drivers may only overtake on the straights.

7. Entries

Where suction cups are used a secondary tether sufficiently strong enough to prevent the item moving within the vehicle should the suction cup/s release must be used.
- h) If the competitor wishes to compete in wet weather, windscreen wipers, headlights and tail lights need to be operational.
- i) A sticker will be issued confirming that the vehicle is able to compete. While the vehicle is competing in this event, that sticker must be displayed on the front windscreen of the vehicle, or at another position on another position on the vehicle approved by the chief scrutineer if there is no suitable front windscreen.

12. Noise

Maximum Noise Limit: 95 dba at 30 metres.

Any vehicle found to exceed the maximum noise emission limit will be suspended from the Event until the Chief Scrutineer / Clerk of the Course is satisfied that action has been taken to bring it within the limit. Any vehicle that exceeds the limit on two runs will be disqualified from taking part in the remainder of the Event. If a vehicle exceeds the noise limit on any lap or laps within a run then only those laps in which the vehicle conformed to the requirements will be allowed for the purpose of the results.

13. Refuelling

All vehicle refuelling must only be done at the designated refuelling areas. Locations will be advised at the Drivers Briefing.

Smoking (which includes e-cigarettes and "vaping") or any naked flame is prohibited within 3 metres of any refuelling/defueling operation.

14. Replacement Vehicles

At the sole discretion of the Clerk of the Course, a Driver whose vehicle has broken down may use a replacement vehicle. The replacement vehicle must have been scrutineered, and preferably be in the same class and type as the original vehicle. Where the original vehicle has been used to record a time and the scrutineered replacement is not in the same class as the original vehicle, times achieved with the replacement vehicle will not be included in the event results for the Driver.

15. Timing Equipment and Accuracy

Each lap will be timed by a computer, triggered by a transponder on the vehicle as it passes the timing point. A transponder will be supplied to each driver along with details on how it should be attached to their vehicle.

For dual-entered vehicles, each driver must ensure that only their transponder is attached to the vehicle during a run.

Times will be measured to an accuracy of 1/1000th of a second.

Reruns will be at the discretion and direction of the Clerk of Course.

16. Results
